

## **Energylandia Rally Team is ready for the Dakar Rally 2024**

- **The Dakar Rally 2024 preparations are entering the last stage**
- **Cars and campers have already sailed from Barcelona to Yanbu**
- **The team will fly to Saudi Arabia on December 30<sup>th</sup>**

The Dakar Rally 2024 is closing on really fast. During two weeks, the competitors will cover almost 8,000 kilometers around Saudi Arabia. Over 4,700 kilometers will be special stages, where competitors will fight against the clock. As usual, there will be sand, dunes and stones that everyone will have to deal with. Energylandia Rally Team is entering the final stage of preparations. What does it mean?

At the beginning of December, the cars, along with all their spare parts and competitors personal belongings, sailed from Barcelona to Yanbu. Before boarding the ferry, cars had their first scrutineering. Energylandia Rally Team will fly to Janbu on December 30<sup>th</sup> to collect all these items from the ferry. Collection of cars and campers will start on January 1<sup>st</sup> at 8 AM. From there, crews will head to Al Ula.

The service park will be located in Al Ula from January 1<sup>st</sup> to 5<sup>th</sup>. On January 3<sup>rd</sup>, administrative check, checking of the safety equipment and a detailed scrutineering will begin. These activities will last for two days. The rally itself will start on January 5<sup>th</sup>. Energylandia Rally Team covered over 6,000 kilometers in their new Taurus T3 MAX cars as part of their preparations. They are therefore absolutely ready to start the most important rally of the season! The partners of all three crews will be: Energylandia, Energy2000, Western Camp Resort, Vitabri, Diverse and RMF FM.

*- This is the final stage of our preparations for the Dakar Rally 2024. I think this is the most exciting part, as the rally is just behind the corner. There are several days left until the start and it arouses great emotions. We're done packing - helmets, overalls, personal items for the car, etc. - all of this has already sailed to Saudi Arabia, along with the cars. We also packed some Polish food to diversify our life in the desert – Eryk Goczał said.*

*- It all is waiting for us in the port of Yanbu, Saudi Arabia. We will take these things from there and go to Al Ula, so we will have our first test with these cars on asphalt. It is something completely new for the Dakar Rally 2024. It had to be improved to withstand the hardships of the rally. We also sent a lot of spare parts to Saudi Arabia to be ready for everything. Now all we have to do is to pack the shoes, underwear and go! – the winner of the Dakar Rally 2023 in the T4 class summed up.*

Competitors will face each other for the first time during the prologue, which will take place on Thursday, January 5<sup>th</sup>. It is a short, 27-kilometer special stage. The real deal will start on Saturday, January 6<sup>th</sup>.
